

INSTALLATION GUIDE

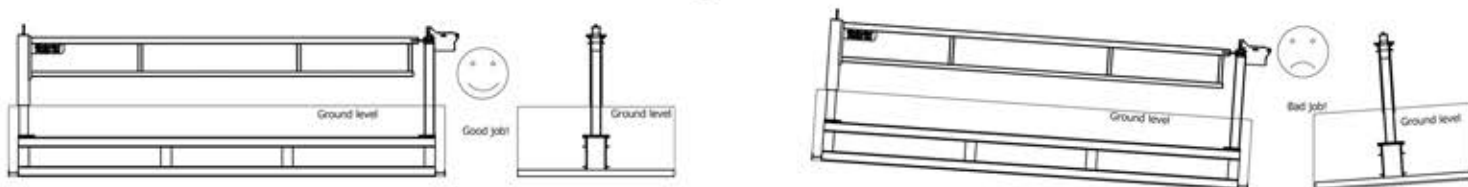

1 > **MEASURE:** Check base length and width to determine excavation footprint.

2 > **EXCAVATE:** Depth will vary depending on preferred gate height.

3 > **PLACE GATE & LEVEL:** Use of string line, laser level, etc is recommended.
Backfil with gravel to level as needed.

4 > **BURY THE BASE:** Backfill of native soil with gravel top layer of 6" is recommended.

5 > **FINE TUNE HEIGHT:** Set height with adjustment bolt as shown.
